

*"100% Pure premium soy candles.
No paraffin - Environmentally friendly!"*

"The soy candles you've been hearing about!"™

AROMALIGHT triple scented candles are premium in every way. Made from a special blend of the finest waxes available, **AROMALIGHT** candles are designed to perform at the highest level possible.

Each premium candle is drenched in high end scented oils, dispersing more than three times as much scent as ordinary scented paraffin candles.

AROMALIGHT candles are designed to burn cleaner and nearly twice as long as ordinary paraffin candles. When burning, an **AROMALIGHT** candle will liquefy across it's entire diameter leaving no wax clinging to the sides of the jar.

These very strict quality standards are why **AROMALIGHT**'s customer base has tripled with each passing year.

*"Burn twice as long,
and three times as strong."*
